

## Non-COVID Interactivity

# CURIO Foot Pedal *by Creating Margin*

Drive engagement to interactive content with our durable foot pedals. Maintain safe, touch free environments while achieving ADA compliance!

### Features and Benefits

- Create **up to 8 input commands** to transition states or trigger advanced commands.
- **Steel components** and **ruggedized exterior** provide enhanced durability.
- Maintain **touch free environments** without sacrificing interactive features.
- Trigger events on pedal **"press"** or **"release"**
- Use **multi-directional pedals** to create advanced applications

Up to eight customizable commands/directions.

Rubberized exterior casing for durability and product longevity.

Steel and spring construction allow for haptic feedback at each press.

### Choose Your Material

Go for **versatile rubber**, **commercial carpet** to match your environment, or a **hard wood** top plate. Same reliable mechanics, with a customized look for each location.
